Tushar Kumar Mahata

WordPress & Shopify Developer — Migration, Speed, SEO, Web Development

Dhaka, Bangladesh · +880 1773 545778 · tusharmahata07.cse@gmail.com · github.com/TusharMahata

I am a human being, not an expert of everything. I face problems, think, take help, discuss and solve the problem.

That is how the last six years have gone — real clients, real deadlines, and sites that had to work on Monday morning. I build and maintain **WordPress and Shopify** stores: design, development, speed and SEO. Since **March 2025** I have been the remote developer for **Continental Restaurant Equipment**, where I migrated the site from WordPress to Shopify. Alongside the web work I keep a machine-learning practice — Python, TensorFlow, and a **Google TensorFlow Developer Certificate**.

EXPERIENCE

Web Developer — Remote

Mar 2025 — Present

Continental Restaurant Equipment · continentalrestaurantequipment.ca

- Joined as the ongoing **remote developer** on the existing **WordPress** site — maintenance, bug fixes, design, development, **speed** work and **on-page SEO**.
- **Migrated the site from WordPress to Shopify**, carrying products, content and structure across to the new storefront without losing the catalogue.
- Audit and fix loop: structured data, robots & sitemap, app and script bloat, page weight — **prioritised by impact**, then shipped.
- Continue to design, build and optimise on the Shopify storefront with **Cloudflare** in front.
- Result over the engagement: **sales grew 300%**.

Shopify · WordPress · Cloudflare · Speed Optimization · Technical SEO · Theme Development

WordPress & Shopify Developer

2020 — Present

Fiverr · Freelance · International clients

- Maintain, fix and **customise** WordPress, WooCommerce and Shopify builds for a continuous roster of clients.
- Take designs from concept to live storefront — full **theme design and redesign** with Elementor and Divi, responsive builds, and HTML/PHP → WordPress conversions.
- Hunt down slow assets and bloat, then apply **speed optimisation** so pages actually load.
- Run **on-page SEO** passes — structure, metadata, content — plus backups, updates and restores so sites stay healthy.
- **Level 1 seller · 5.0 rating across 40+ reviews**; recurring clients on multi-month projects.

WordPress · WooCommerce · Shopify · Elementor · Divi · Speed Optimization · On-page SEO

SKILLS

LANGUAGES

Python · HTML · CSS · JavaScript · PHP · SQL · C

CMS & PLATFORMS

WordPress · Shopify · WooCommerce · Elementor · Divi · Cloudflare

WEB CRAFT

WordPress Migration · Speed Optimization · On-page SEO · Technical SEO · Theme Design · Responsive Design · Backups & Restore

ML FRAMEWORKS

TensorFlow · Keras · Scikit-Learn · FastAPI · Flask · Docker

ML DISCIPLINES

Image Recognition · Object Detection · Transfer Learning · NLP · Model Optimization · Predictive Maintenance

TOOLING

OpenCV · Matplotlib · Git · Lighthouse / PageSpeed · JSON-LD Structured Data

SELECTED MACHINE-LEARNING WORK

Dog's Breed Classifier — 95% accuracy

FINE-GRAINED IMAGE CLASSIFICATION

Transfer-learning model that tells 120 dog breeds apart on the Stanford Dogs dataset. Pushed architecture and hyperparameter choices through a long experiment loop, then shipped as a **Dockerised FastAPI service** with endpoints for image upload and live prediction.

TensorFlow · Transfer Learning · OpenCV · FastAPI · Docker

Footballer Classifier — 81.32% · 673 images

OBJECT DETECTION & ML PIPELINE

Find and name famous footballers in photos. Faces located with Haar Cascade, cropped, then pushed through **wavelet transformation** for feature engineering before a spread of ML models ran through a single pipeline. Deployed on Flask for instant predictions.

OpenCV · Flask · Scikit-Learn · ML Pipeline · HTML / CSS

PubMed 200k RCT Classification — 200k abstracts

NLP · RESEARCH REPRODUCTION

Rebuilt the model architecture from the original paper for sequential sentence classification over the PubMed 200k RCT corpus: rigorous preprocessing, competing architectures, disciplined tuning and **interpretability work so results can be explained**, not just reported.

TensorFlow · NLP · Transfer Learning · Matplotlib · Interpretability

EDUCATION & CERTIFICATION

BACHELOR'S DEGREE

Computer Science & Engineering

Daffodil International University · 2016 — 2021 · CGPA 3.10 / 4.00

CERTIFICATION

TensorFlow Developer Certificate

Google · Issued Sept 2023 · Valid to Sept 2026

LANGUAGES

Bengali · English · Spanish
